STOCKS, BONDS, AND MONEY NAVAL MILITIA

MANY SHARES

In banking circles the statement is made that the American Telephone Company will issue \$15,000,000 stock this Summer at par and a like amount early next year.

The Treasury has purchased 100,000 unces of silver at 67.590 cents per ounce.

A review of the principal security issues which have been announced during May shows that the month has been about the most eventful of the year from the standpoint of rew fluancing. The total amount of bonds, stock and notes which have been put out by the leading corporations is about \$203.000,000. In each case the borrowing corporations, with the possible exception of the Interborough-Metropolitan Company, paid from 5 per cent to 5½ per cent for their money.

Whether Secretary Cortelyou will consider it advisable to call in some of the Government deposits—\$172,500,000 now in the banks—to redeem the short 4's July I next is still a matter of speculation. It hardly will be necessary from the Treasury viewpoint in the face of constantly increasing surplus, but he may consider it prudent to do so now in order to fortify the Treasury for the crop-moving period in the fall.
